

[Solve Water Pressure Issues in Your Home or Business]

Atom™

Water Pressure Booster System
for Light Commercial and Residential Applications

70%

Energy
Savings

Is your soda fountain on the fritz? Do you have a low water pressure problem? Are your flush valves just not flushing like they used to? It might be time to look into the Atom. With an advanced variable speed controller, the Atom automatically adjusts the speed of motor systems according to system demand, providing up to **70% of energy savings** compared to constant speed units.

Explore the Features and Benefits of Our Atom System:

- Energy and Cost Reducing Solution for Light Commercial and Residential Applications
- Threaded End Connections, Requires Only Power and a Water Connection
- ASHRAE 90.1 Compliance with Logic – No Remote Sensors Needed
- Highly Compact Stainless Steel Pump and Tank Design
- Low-Noise Solution
- Plug and Play Constant Discharge Pressure, Monitored Automatically
- Simultaneously Manages Multiple Appliances, Lawn Care Systems and More
- Factory Tested and Pre-Set, No Assembly Required
- Quick-Ship Available for Last-Minute Projects
- Easy to Size, Price and Submit
